Action Items from Aug 6 Conference call

-
- Randy Turner will try to find other contacts that would be willing to work with the PWG to help deploy NEA health assessment. (Juniper, Symantec, Cisco are suggested candidates.) Is someone willing to sit down with the PWG and “have discussions”?

Still needs to pursue this further. No new information to report.

- Joe Murdock will send an e-mail to one of the Microsoft NAP team members asking his opinion on the use of an opaque value for HCD Certification State—and specifically the topic of using vendor-specific plug-ins.
- Brian Smithson will investigate whether a formal relationship document can be created between TCG and PWG. He will find out their position on liaison agreements.
- Joe Murdock will update the NAP Binding specification to address the comments from the June face-to-face meeting and post for review..

Action Items from June 4 & 16 Conference calls

- Ron Nevo will collect all questions for the Microsoft NAP team that are submitted to the IDS reflector and will pass them along to Microsoft.
- Randy Turner will post a link to the RSA discussion of TPM alternatives

IDS meeting adjourned.
