

IDS Working Group

2008-08-07 Conference Call Minutes

1. Attendees

Lee Farrell (Canon), Ira McDonald (High North), Jerry Thrasher (Lexmark), Nancy Chen (Oki Data), Ron Bergman (Ricoh), Brian Smithson (Ricoh), Ron Nevo (Sharp), Joe Murdock (Sharp), Bill Wagner (TIC), Pete Zehler (Xerox),

2. Agenda

1. Identify Minutes Taker
2. Approval of Minutes from 7/24 Telecon
3. Review Action Items
4. Review latest HCD Health Assessment Attributes Specification
[<ftp://ftp.pwg.org/pub/pwg/ids/wd/wd-idsattributes10-20080728.pdf> and [.doc](#)]
5. Review first draft of NAP Binding Specification
[<ftp://ftp.pwg.org/pub/pwg/ids/wd/wd-ids-napsoh10-20080731.pdf> and [.doc](#)]
6. Face to Face Meeting Agenda
7. New business

3. Identify Minutes Taker

Lee Farrell

4. Accept Previous Minutes

There were no objections to the previous Minutes.

5. Review Action Items

ACTION: Jerry Thrasher will send a note to Cisco to find out if there is an information path we can develop to learn about attributes (e.g., if there is a better source of information.)

→ *The Cisco documentation that is currently available is all there is. **CLOSED***

ACTION: Ron Nevo will contact the TNC Chair to try to get the TNC attributes information—and make it available to all PWG members.

→ *The TNC information is available via the IETF NEA effort. **CLOSED***

ACTION: Randy Turner will ask the IETF NEA Working Group (or other groups) for their thoughts on attributes such as Time Source, Minimum Cipher Suite, Bridging, Minimum Encryption Key Length, etc. Are any of these applicable to the industry in general?

→ *At the NEA face-to-face meeting last week, Lee Farrell and Jerry Thrasher held discussions with several of the NEA participants, including Kaushik Narayan (Cisco), Paul Sangster (Symantec) and Steve Hanna (Juniper). It was acknowledged that device-specific attributes are not currently receiving much focus in the NEA WG. They seem*

interested in integrating them, however—and the PWG is encouraged to submit proposals for new attributes representing the Printing industry. They were also interested in suggestions for additional data types, such as Boolean.

*Jerry noted that the IDS group needs to consider whether it would be preferable to keep proposed items in our vendor space or to encourage adoption into the NEA Standard space. **CLOSED***

As a result of the above discussion, the following Action Item was generated:

ACTION: The group should generate a proposal for additional attributes and data types for submission to the NEA Working group.
--

6. HCD Health Assessment Attributes Specification

Ron started a page-by-page review of the latest draft, but a problem caused the teleconference to end prematurely.

7. NAP Binding Specification

[No discussion.]

8. Face to Face Meeting Agenda

[No discussion.]

9. Next Teleconference

To be announced.
