Type of Assignment:
Permanent registration updates in IPP Registry
Copy of revised IANA XML registry is at:
http://ftp.pwg.org/pub/pwg/ipp/IANA-IPP-registrations/
in the file iana-ipp-registrations-20191010.xml

Changes:

- All mailing list registrations now point to the corresponding plain text registration file.
- Added missing 5106.4 and 5107.3 printer-state-reasons values
- Removed bad keyword registrations for cover-back-supported, cover-front-supported,
  cover-sheet-info-supported, and proof-print-supported (these are lists of attribute names
  so are not registered keyword values)
- Fixed a number of issues: job-finishigns-col typo, print-content-optimize keywords, and the
  keyword syntax fields were wrong for some job-hold-until and job-password-encryption values
