

14.1. Examples

Below are examples of a device cutting in synchronization with the data (example 1), cutting at multiples of fixed-size media width (example 2), 'iso-a4x4-white' fixed size, and 'iso-a4xsynchro-white'.

Example 1: "Synchro-Cut" Example

"data height is A1-height, A1 width < data width < A1 width X 2", specified 'iso-a1xsynchro-xxx'

Example 2: the same data as example 1, specified 'auto-fixed-size-xxx'
