### General Discussion

- Minutes from the May 18<sup>th</sup> teleconference were accepted.
- A PWG Imaging XML name space needed for WS-Discover. This will be an agenda item for the next PWG SC meeting.
- Rick's comments
  - Section 4.5.7 and 4.5.8: change word inversed needs to change to inverted
  - Section 4.5.7 and 4.5.8: (phase II should use a higher number for higher priority)
  - Section 4.6 CIM\_PrintSAP derives from CIM\_ServiceAccessPoint not CIM\_JobDestination
  - Section 4.7: Delete note 2 and change mapping to prtInterpreterLangFamily or mime-types-supported and add model correspondence.
- Craig's comments on preliminary cut of the CR
  - Reminder that there will be one CR per MOF file

- Background and normative references should point to previous CR (CIM\_Printer) for Phase I.
- Draft CR filenames to include CIM class name and date

### **Next Steps / Open Actions:**

- Teleconference scheduled for next week (6/1). Bill gone till next face-to-face meeting in June.
- Others need to do a review Ira's document. The white paper and possibly the CR should be ready for the next PWG face-to-face meeting.
- Proposed schedule: Call for objections in June. End of June complete Phase I.
- Rick to ask about the process about moving from experimental to final.
